

# A unique opportunity awaits

Now offering the Advanced Apprenticeship in Sporting Excellence (AASE)

## Live the dream!

## Train and study in Henley-on-Thames

Henley College and Leander Academy are now recruiting young athletes to study the AASE course from September 2013, with applications being accepted from complete beginners or experienced rowers.

Henley College is a non-fee paying establishment that has a good reputation for academic achievement, vocational studies and sporting success, preparing 16-19 year olds for university life.

Leander is the most successful rowing club in the world. Athletes on the AASE course will benefit from expert coaching and support to help them to row to their highest potential.

This year Henley College and Leander Academy are working together in partnership to give four young talented athletes the chance to row alongside their studies. The successful applicants will gain an Advanced Apprenticeship in Sporting Excellence (AASE) Level 3 NVQ, either as a standalone qualification or in addition to A Levels.

*Colin Smith:*

- Went to Henley College
- Olympic Silver medalist in Mens 8+ Beijing 2008
- Won Boat Race 2009 for Oxford

### Other benefits of the Apprenticeship include:

- A structured academic life
- A progressive route towards qualifying for the GB rowing team
- Living with a local family (if moving away from home)
- Pastoral care at both Henley College and Leander Club
- Sport Injury Support with Spire Health Care

## Interested?

For more information, or to apply please contact Martin Unsworth at [Muns@henleycol.ac.uk](mailto:Muns@henleycol.ac.uk) or Livinia Sherriff at [rowing@leander.co.uk](mailto:rowing@leander.co.uk)

**We look forward to hearing from you**
